

Benefit	What That Means For Your Business
<p>Dynamic Bandwidth Allocation</p>	<p>The integrated product is a dynamic service, meaning when phone lines are not in use, the 1.5 Mbps of bandwidth is useable for your Internet traffic.</p>
<p>Simplified networking</p>	<p>Reduced costs and increased efficiency. Minimized IT burden and reduced IT support expenses.</p>
<p>Flawless Installation</p>	<p>No disruption to your business. No disruption to your day-to-day business. It's business as usual. The Integrated Access Device is provided at no additional cost.</p>
<p>Keep your existing phone numbers</p>	<p>Less hassle and save money. Minimize potential marketing expenses by maintaining your existing phone numbers and phone book listing and there is no need to re-print business cards and other stationary.</p>
<p>Proactive management of your network and troubleshooting</p>	<p>Peace of mind. We know our customers have a network issue before they do, and we resolve it or provide communications before the problem has an opportunity to impact your business.</p>
<p>A full T1 and at a better price</p>	<p>Fast Internet all the time. What you buy is what you get. We don't manipulate the bandwidth. So what that means is you always have a fast internet usage and can always access the information you need and when you need it.</p>
<p>Localized customer service and support</p>	<p>Confidence. Personalized, timely service by individuals who know you and care about your business.</p>
<p>Facilities Based Provider</p>	<p>Quicker more reliable service. We own and manage our own physical facilities and network, which means we control our network and we install the highest quality equipment.</p>
<p>Redundant Network</p>	<p>Your business is always operational. Our network has two gateways to the internet. If one gateway were to fail, all internet traffic is rerouted automatically through the available gateway, so our customers stay connected.</p>
